Career Objective

Passionate and detail-oriented MCA graduate with hands-on experience in full-stack web development (MERN stack) and higher education instruction. Skilled in building responsive web applications, RESTful APIs, RAG-based AI systems, and mentoring undergraduate students in programming and core computing concepts. Seeking an opportunity to leverage my technical and pedagogical skills to build scalable software solutions and foster learning in modern web and AI technologies.

Education

Degree	Institution	Year	Result
MCA	Adamas University, Kolkata	2024–2026	CGPA: 8.84
BCA	Panskura Banamali College (Autonomous)	2021–2024	CGPA: 7.84
Higher Secondary	Bishnupur Union High School	2021	82%
Secondary (Madhyamik)	Bishnupur Union High School	2019	67.28%

Experience

Faculty – Computer Science Aug 17, 2026 – Present
Royal SRAS Hospitality & Educational Institute

- Delivering lectures and conducting practical lab sessions for BCA and B.Sc. Computer Science students.
- Teaching core programming concepts, data structures, and web development technologies.
- Designing curriculum modules, assignments, and conducting student assessments.
- Mentoring students on software development projects and practical coursework.

MERN Stack Developer Intern June 2025 – May 2026
Indomitech Group (Remote)

- Developed and maintained full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Built RESTful APIs and integrated frontend-backend communication workflows.
- Implemented JWT authentication and role-based authorization systems.
- Managed MongoDB databases and optimized overall application performance.

Projects

University AI Query Assistant (RAG & DistilBERT)

- Developed an intelligent RAG-based query assistant to answer admissions, syllabus, and institutional FAQs.
- Integrated **DistilBERT** embeddings with a vector store for semantic document search and context retrieval.
- Connected generative LLM APIs and engineered prompts to synthesize grounded, context-aware responses.
- Built Python/Flask backend APIs for retrieval-generation pipelines and designed an interactive chat UI.

Job Hive – Job Portal Application (MERN Stack)

- Developed a full-stack job portal with dedicated Admin, Employer, and Candidate dashboards.
- Implemented JWT authentication, role-based access control, and dynamic application tracking.
- Engineered modular RESTful APIs using Express.js and built a responsive UI with React.js and Tailwind CSS.

Food Delivery Website (MERN Stack)

- Developed a responsive food ordering platform with authentication, cart management, and order processing.
- Built modular backend APIs and integrated MongoDB for persistent data handling.

Razorpay Payment Integration System

- Integrated Razorpay payment gateway for secure transaction processing and signature verification.
- Developed backend webhook endpoints for real-time payment status handling.

Technical Skills

Programming Languages: JavaScript, Python, C, C++, Java
Frontend Technologies: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend Technologies: Node.js, Express.js, REST APIs, Flask
AI & Machine Learning: Retrieval-Augmented Generation (RAG), LLM Integration, Vector Embeddings
Databases: MongoDB, MySQL, Vector Databases
Authentication & Security: JWT, bcrypt.js, Role-Based Access Control (RBAC)
Tools & Platforms: Git, GitHub, Postman, VS Code, Linux Basics
Deployment: Render, Vercel, Netlify

Certification

MERN Stack Development Training – Euphoriya Genx (2024)
